Chitradurga(dist).

SKILLS

- Project Management
- Public Relations
- Teamwork
- Time Management
- Leadership
- Effective Communication
- Critical Thinking
- Digital Marketing

TECHNICAL SIKLLS

- Frontend : Python, HTML, CSS, PHP
- Backend : MySQL, Node.js
- Tools: GitHub, VS Code, Jupyter notebook

LANGUAGES

- Kannada
- English
- Hindi

OBJECTIVE

I am a passionate Full-Stack Developer with a strong foundation in both front-end and back-end technologies. Proficient in building dynamic, responsive, and scalable web applications. I am dedicated to delivering high-quality software solutions that drive innovation and efficiency.

PROFESSIONAL EXPERIENCE

FULL STACK DEVELOPER INTERN:

FEB - 2026

- Designed User interface elements like buttons, forms, menus, navigation bar.
- Implemented front-end features to improve user experience.
- Created a chatbot using node.js
- Created a online quiz application

Final Year Academic Project

Voice-Based 2D AI-Powered Mock Interview Assistant 2025 - 2026

- Python, Flask, Gemini AI, SQLAlchemy, Speech Recognition, gTTS, Pygame
- Developed an AI-powered mock interview platform with voice-based interaction and real-time interview simulation.
- Integrated Google Gemini AI to generate technical interview questions and evaluate candidate responses.
- Implemented speech recognition and text-to-speech for seamless voice communication.
- Built a 2D animated interviewer and generated personalized feedback with performance scoring.
- Delivered an interactive and scalable interview preparation platform that helps users improve communication skills, confidence, and interview readiness.

EDUCATION

Diploma in Civil Engineering

2019 - 2022

Government Polytechnic Hosadurga - 577527
percentage - 75.18%

Bachelor of Engineering in Information Science and Engineering.

2023 - 2026

Atria Institute of Technology Bengaluru
CGPA : 7.05

PROJECT

Hand Written Digit Recognition:

2023 - 2026

- Used Deep Learning Methods.
- Most widely used Machine Learning algorithms, KNN, SVM, RFC and CNN.
- Using Keras as Backend and used Tensorflow as software.
- CNN model gives accuracy of 98.72%.

Online Quiz Application:

- Used JavaScript and CSS as a Frontend interface for the quiz.
- Implemented Node.js as a Backend for logic to handle quiz questions and User scores.
- Connected Frontend and Backend.

Tourism chatbot :

- The chatbot is made using Python
- This chatbot helps patients or users get information about hospital and doctors

Hotel Booking system:

- Used HTML, CSS, JavaScript, PHP as a Frontend.
- MySQL used to store the data.

CERTIFICATES

Full Stack Developer Intern -

2025

TECHNOHACKS, Bangalore

Introduction to Cloud Computing -

2025

INFOSYS SPRINGBOARD, Bangalore

Database Management System Completion -

2024

INFOSYS SPRINGBOARD, Bangalore

Computer Network & Internet Security -

2024

INFOSYS SPRINGBOARD, Bangalore

Programming Fundamentals using Python -

2023

INFOSYS SPRINGBOARD, Bangalore

PUBLICATIONS

A STUDY OF BANK NIFTY TRENDS WITH MULTIPLE CHARTING METHODS

2025

-Anamoly detection in IOT Network using Machine Learning.

DECLARATION

I solemnly declare that the information in this resume is true to the best of my knowledge and belief. All information in this resume is right and truthful. I announce that the information and details shared in this resume are correct and inclusive. I take full liability for the correctness of the information.
